Letter of Recommendation

Date: 20th March, 2023

To Whom It May Concern:

It is with great pleasure that I write this Letter of Recommendation for **Mr. Subash Palvel** from Jansons Institute of Technology, who worked under **Feynn Labs Services** as a **Machine Learning and Data Analysis Intern** for a period of two months from 10th January, 2023 to 10th March, 2023. During this period, he has been very capable in handling all the assigned tasks and projects.

Mr. Subash Palvel is very passionate about solving real world problems through the use of Machine Learning and Data Analysis. He is very creative with his product/service ideas, but also keeps in the mind the real-world constraints under consideration in the prototyping phase.

He presented excellent ideas in his AI Product/Service Prototyping Project. He also coordinated well with his teammates in Market Segmentation Project.

He is adaptable as work circumstances and situations change. He will be an asset to any Market Analysis team due to his wide range of Machine Learning and Data Analytics skillset. In addition to above, Mr. Subash Palvel is dedicated to providing quality work. He strives to make his project reports and codes as thorough and detailed as possible. His enthusiasm serves to motivate everyone on his team.

I, therefore, recommend Mr. Subash Palvel without any hesitancy, knowing he is worthy of top consideration in the Machine Learning and Data Analytics profession.

Sincerely,

Sanjay Basumatary
